Python,

About me

Multilingual and detail-driven Front-End Developer with strong cybersecurity awareness and hands-on experience building secure, responsive web applications using Node.js, Vue.js, React, Angular, and TypeScript. Cisco penetration testing expert, bringing a security-first mindset to front-end development. Skilled in Python, HTML5, CSS3 (Sass), JavaScript (ES6+), GitHub, UI/UX, Atlassian tools (Jira and Confluence), Bootstrap and RESTful APIs, with a focus on clean, scalable code and secure component architecture. Adept at refactoring legacy code, collaborating in agile teams, and mentoring junior developers. Passionate about continuous learning, inclusive teamwork, and elevating products through both UX excellence and cybersecurity best practices. A proactive team player and natural coach, experienced in mentoring junior developers, participating in code reviews, and contributing to cross-functional collaboration. Known for a strong sense of ownership, excellent communication skills, and the ability to adapt quickly in fast-paced, agile environments. Passionate about building user-friendly products with a focus on both frontend excellence and robust application security.

Work Experience

May 2025 - Present

Cybersecurity & Networking Trainee
Interface3, Brussels

- Hands-on training in routing, switching, IP configuration, and network troubleshooting using Cisco tools.
- Applied cybersecurity principles for secure application and network environments.

Sep 2021 - May 2025

Web Developer Freelancer
Wide Advisory, Brussels

- Built secure and responsive UI optimized front-end components using **Angular**, **HTML5**, **CSS3 (SASS)**, and **JavaScript (ES6+)**, **WordPress**, **Google Analytics** for client web platforms.
- Collaborated remotely with developers to standardize component architecture and improve performance.
- Applied best practices for security, scalability, and code reusability.

Jan 2024 - Mar 2024

Front-End Developer
Walter Clayton, Brussels

- Built responsive landing pages using **WordPress**, **PHP**, **D3.js**, and **WooCommerce**.
- Participated in Agile sprints, collaborating closely via **Jira** and **GitHub**.
- Ensured UI consistency and cross-browser compatibility across multiple projects.

May 2023 - Nov 2023

Web Developer
BeCode, Brussels

- Developed full-stack apps using **React**, **Node.js**, **Express**, **MongoDB**.
- Applied **performance optimization** techniques

Soft Skills:

Collaboration, Communication, Problem-Solving, Project Coordination, Time Management.
